Notification of Discharge of Untreated Wastewater

General Statute 143-215.1C requires that the owner or operator of any wastewater collection or treatment works to issue a press release when an untreated wastewater discharge of 1,000 gallons or more reaches surface waters.

In accordance with that regulation, the following news release has been prepared and issued media in the affected county:

The Town of Nashville had a discharge of untreated wastewater on March 17, 2026 of an estimated 23,100 gallons on the outfall line, located just east of the Davis Farm Subdivision off Aviation Ave. The untreated wastewater was discharged into Stoney Creek.

The Division of Water Resources was notified of the event on March 17, 2026 and is reviewing the matter. For more information contact the Town of Nashville at (252) 459-4511
